8 Nuts

8 Washers

Hex wrench

4 Brackets B

8 Square nuts

8 Socket bolts

TOOLS REQUIRED

Phillips screwdriver

10 mm Combination wrench

INSTALLATION

NOTE:

- Be careful not to damage the roof and finished surfaces of the body when installing the luggage basket.
- Before entering automatic car washes, check the vehicle height limit of the automatic car wash and the height of the vehicle. Proceed carefully.
- The maximum load capacity for this product is 110 lbs. (50 kg); approximate product weight is 12 lbs. (5 kg).
- An optional roof rack (sold separately) is required to install the luggage basket.

1. Insert the nine pipes into one frame B; press down on the button on the end of each pipe, and push the end into the hole in frame B. Repeat on the other side.

2. Slide the flap into the groove of one frame A. This will be the front of the basket.

3. Attach one L bracket onto each end of frame A, using one screw for each bracket.

4. Install L brackets on the other frame A.
5. Attach frame A to frames B by sliding the L brackets into frame B, and installing two screws.

6. Install the remaining frame A to frame B the same way.

7. Slide four square nuts into frame B through the groove as shown. Repeat on the other frame B.

8. Position four L bracket covers (A) over the ends of the frames A and B, then install four L bracket covers (B) and install self-tapping screws to secure the cover.

9. Position the four brackets B to frame B at the measurement shown, and install two socket bolts into the two square nuts for each bracket B.

10. Attach one bracket A to each bracket B with two bolts, two washers, and two nuts. Do not tighten the bolts yet.

11. Position the luggage basket on the roof rack, with the flap at the front. Attach the basket to the crossbars by sliding bracket A around the crossbar and tightening nuts. Tighten the nuts evenly.
