Rear floor mat

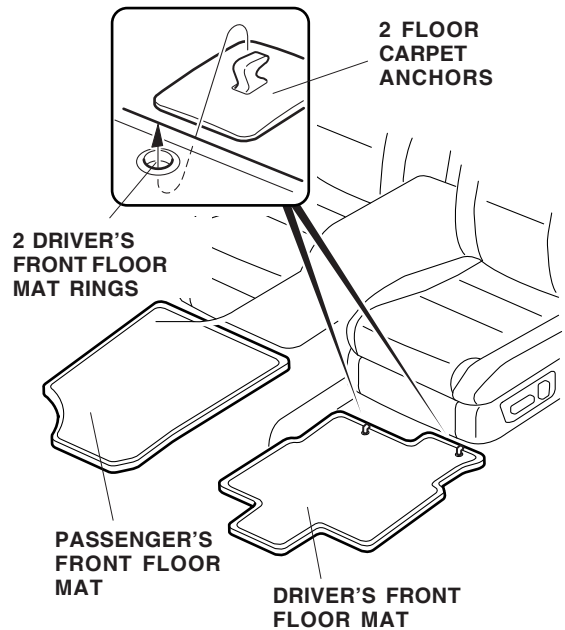

## INSTALLATION

### NOTE:

- Before installing, identify each floor mat.
- Remove the standard floor mats before installing the all season mats.
- The floor mat anchors are required for the driver's side of the vehicle; the anchor prevents the driver's floor mat from sliding forward and interfering with the pedals.

1. Install the driver's front floor mat by placing the two rings in the floor mat around two anchors on the floor carpet.

2. Install the passenger's front floor mat on the floor carpet.
3. Install the rear floor mat on the floor carpet in the front of the rear seat.
